The next presentation, by Jack Martin, focuses on the math skills students need to score well on apprenticeship tests. Jack will guide the participants through the various questions and problems students will encounter when applying for an apprenticeship program.

Next, Barbara Halsey, from ACT will present on Work Keys. Barbara will discuss the data that is available and how it can be used for improvement strategies.

**Please join us for both days of networking and professional development.** Lodging is available at the Baymont Inn & Suites at the Toronto Road exit. Registration is available for one day or both days.
