

Embedding **You Tube** Into Microsoft PowerPoint 2007

1. Open power point. Insert new slide.
2. Get developer tab. (If developer tab is present, go to #4)
3. Go to file in upper left corner of screen. Click on power point options. Click on under popular. Show Developer tab in ribbon. Click. Click OK.
4. Click on tool box. (Lower right hand corner)
5. Scroll down to "shockwave flash object". Select. Click OK.
6. Left click. Draw on screen. Minimize.
7. Go to You Tube. Select video. Copy URL (Control C). Minimize.
8. Launch power point.
9. Right click on box. Left click on properties.
10. Go to "movie".
11. Paste You Tube URL next to "movie". (Control V)
12. Delete "watch?".
13. Replace "=" with a forward/. Close.
14. Left click on box.
15. Press F5 to play video.
